

Center for Physical Activity & Weight Management/Energy Balance Lab KU

The Center for Physical Activity and Weight Management, has locations in Lawrence and Kansas City, and supports research, training, and outreach programs for weight loss and weight maintenance for both children and adults. The Center is currently following over 500 participants enrolled in the Weight Control Research Project that is designed to provide weight loss and weight maintenance for adults. We also have 9 funded projects from the National Institutes of Health to investigate exercise, nutrition, prevention of obesity, and weight loss in both adults and children and several industry sponsored programs that investigate nutritional manipulations on energy balance and body composition. The Center currently has the following positions open: post-doctoral researchers (position number M0203826), and research assistants (B.S., MS, Ph.D.) (position number M0203368). Applications are accepted on an ongoing basis. To be considered for any of the positions please apply at [Search Jobs, University of Kansas Medical Center](#)

For additional information about the center, please visit <http://www.ebl.ku.edu>
Please contact Matt Schubert at mschubert2@kumc.edu with any questions.

Matt Schubert, Ph.D.
