Job Details

Title: Research Specialist (Job ID #51150)
Department: College of Applied Health Sciences
Category: Academic Professional
Location: Chicago
Close Date: 05/08/2015
Description: **Research Specialist in Clinical Exercise Physiology**

The Integrative Physiology Lab in the Department of Kinesiology and Nutrition at the University of Illinois at Chicago is seeking a clinical exercise physiology research specialist. This is a full-time position entitled to university benefits. Salary will commensurate with qualifications.

Duties: The successful applicant will be expected to support the ongoing research initiatives of the Principal Investigators in the Integrative Physiology Lab. On-going projects examine cardiovascular, metabolic and musculoskeletal health. As a Research Specialist you will supervise and execute human research procedures and protocols specifically related to exercise and metabolic testing, exercise training, cardiovascular testing as well as data processing, interpretation and documentation.

Qualifications: Applicants must hold a Bachelor's degree in science or related field, preference will be given to applicants with a Master's degree with an emphasis in Clinical Exercise Physiology, Adult Fitness or closely related area. A minimum of three years research related experience is required and a minimum 1 year experience in a hospital or clinical setting involving cardiac/pulmonary rehabilitation, exercise testing, exercise prescription and exercise training. Candidates that are currently certified for Advanced Cardiac Life Support or as a Clinical Exercise Specialist will receive special consideration.

Interested applicants should submit their applications that include curriculum vitae with three references by May 8, 2015.

The University of Illinois at Chicago is an Equal Opportunity, Affirmative Action employer. Minorities, women, veterans and individuals with disabilities are encouraged to apply.
